

DIRECTIONS

READ ALL DIRECTIONS CAREFULLY AND THOROUGHLY BEFORE PROCEEDING. DO NOT HEAT USING AN OPEN FLAME AS IT COULD CREATE A FIRE AND PERSONAL INJURY. NEVER LEAVE THE PRODUCT UNATTENDED WHILE HEATING.

HOW TO HEAT

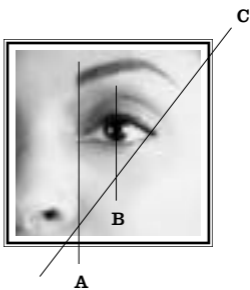

1. Remove lid and place container on electric warming device. **NEVER HEAT NO-TWEEZE™ OVER AN OPEN FLAME OR GAS STOVE.**
2. No-Tweeze™ is ready to apply when melted to a peanut butter-like consistency around the edges. It is not necessary to melt the entire contents for a single use.
3. **MAKE SURE PRODUCT IS NOT TOO HOT FOR APPLICATION.** Test on underside of wrist to determine that product is not too hot to apply.

THE PERFECT ARCH

(A) The brow should begin directly above the inside corner of the eye near the bridge of the nose.

(B) The arch of the brow should begin directly above the center of the pupil when looking straight ahead.

(C) Brow should end at a point created by a diagonal line extending from the outside of the nostril to the outside corner of the eye.

All hair between brows should be removed.

DIRECTIONS FOR ARCHING EYEBROWS

CAUTION : ALWAYS KEEP THE EYE UNDER THE BROW BEING WAXED CLOSED TO ENSURE PRODUCT WILL NOT FALL INTO OPEN EYE.

1. Use No-Tweeze Desensitizing Solution to numb the area of hair removal and also to remove make-up and oil from brow.

2. Apply No-Tweeze with applicator stick, starting under the brow, beginning at the bridge of the nose.

3. Follow the natural brow line with a steady flow of No-Tweeze, moving toward the outer corner of the eye.

4. Gently, but firmly, press and smooth No-Tweeze with fingertips while product is still soft and pliable. Smooth in direction in which product was applied.

5. While holding skin taut with one hand, gently lift edge of No-Tweeze wax strip with the free hand at the outer corner of the eye. Grip firmly.

6. With a quick motion, pull No-Tweeze wax strip off at a 45 degree angle in opposite direction from which applied.

7. Repeat for other eyebrow.

8. Use similar procedure for removing unwanted hair above and between the eyebrows. Apply with direction of hair growth. Remove with a quick pull in opposite direction at a 45 degree angle.

NOTE : *If wax falls on hair not wanted removed, apply ice cube to harden wax. Wait at least 2 minutes, remove ice, dry, and crumble wax off or remove with an eyelash/brow brush.*

DIRECTIONS FOR REMOVING HAIR ABOVE UPPER LIP

1. Use No-Tweeze *Desensitizing Solution* to numb the area of hair removal and also to remove makeup and oil.

2. Using applicator stick, apply No-Tweeze in a downward motion from center of upper lip to one corner of mouth.

3. Gently, but firmly, press and smooth No-Tweeze with fingertips while product is still soft and pliable. Smooth in direction in which product was applied.

4. Holding skin taut with one hand, gently lift edge of No-Tweeze wax strip with free hand at the outer corner of the lip. Grip firmly.

5. With a quick motion, pull No-Tweeze wax strip off at a 45 degree angle in opposite direction from which applied.

6. Repeat for other side.

7. Soothe skin by applying No-Tweeze *Aloe Azulene Skin Recovery Complex*.

OTHER FACIAL HAIR AND BIKINI LINE

1. Use No-Tweeze *Desensitizing Solution* to remove make-up and oil.

2. For bikini line and other sensitive areas, apply a dusting of corn starch before waxing.

IMPORTANT : For bikini line waxing, be sure hair to be removed is no longer than 1/4 inch in length. Attempting to remove hair longer than 1/4 inch may cause the wax to press the hair to the skin and result in poor epilation results. It is advisable to wax in small sections for better control.

3. Apply No-Tweeze with applicator of appropriate size in the direction of hair growth.

4. Gently, but firmly, press and smooth No-Tweeze with fingertips while product is still pliable. Smooth in direction in which product was applied.

5. Holding skin taut with one hand, lift edge of No-Tweeze wax strip with free hand. Grip firmly; remove in opposite direction from which applied.

6. Skin may be soothed by applying No-Tweeze *Aloe Azulene Skin Recovery Complex*.

CAUTION: THIS PRODUCT SHOULD NOT BE USED BY PEOPLE WITH DIABETES AND CIRCULATORY PROBLEMS, WHO ARE PARTICULARLY SUSCEPTIBLE TO INFECTION. WAXING—AND TWEEZING AS WELL—CAN LEAVE THE SKIN SORE AND OPEN TO INFECTION. THIS PRODUCT SHOULD NOT BE USED OVER VARICOSE VEINS, MOLES, OR WARTS. IT SHOULD NOT BE USED ON THE EYELASHES, INSIDE THE NOSE OR EARS, ON THE NIPPLES OR IMMEDIATE GENITAL AREA, OR ON IRRITATED, CHAPPED, SUNBURNED, OR CUT SKIN.

A small area should be tested for sensitivity or allergic reaction before treating the entire area.

NOTE : Users of Retin A, Alpha Hydroxy Acids or other chemical exfoliants should not wax in the area of exfoliation. Discontinue use of exfoliants two weeks prior to waxing.

If you are prone to bumps and/or ingrown hairs, use No-Tweeze *Ingrown Hair and Bump Preventative*.
